Report of the Forestry Committee

The 7,000 pine seedlings set out by your committee in 1925 are nearly all alive and doing well.

Last winter some thinning was done on the Parsonage lot, the churches of the town paying for the work and having the wood which was removed. This was a help to the churches and a start toward a much needed thinning that should be carried on each year.

The schools have as yet not availed themselves of the opportunity to get their supply of wood from the School lot. We recommend that a part, or all, of the wood for the schools be taken from the north end of the School lot this season so that more pines may be set where needed.

With a little work and care each year our town forest will soon be on a paying basis and in a short time become a valuable asset to the town.

The following is a statement of the expenditures for the year ending January 31, 1927:

Money in hands of town treasurer,		\$44 50
Paid for trees,	\$15 50	
Paid for setting trees,	28 00	
		\$43 50
Balance on hand,		\$1 00

Respectfully submitted,

Report of Superintendent of Schools

To the Citizens of Northwood:

There is much satisfaction in visiting the schools of Northwood for the reason that we always find something worth while being accomplished. There have been no changes in the teaching force of the Elementary Schools and that speaks well for the schools in general.

EDUCATIONAL PROGRESS

If there is any state in the Union where better influence and greater enthusiasm for the welfare of its schools emanates from the state department of Education than in the State of New Hampshire the writer still has that fact to ascertain.

In addition to conferences for superintendents frequently held, summer courses for teachers at the Normal schools, institutes both state and county, many publications of curricula and pamphlets bearing on public education are distributed to school boards and to all those who work in the schools.

These activities tend to revitalize our interests, improve our methods and skill, and arouse in us all an earnest desire to help our respective communities.

THE SCHOOL PROPERTY

All the buildings are in an excellent state of repair. The Mountain school building is now a very nicely arranged and comfortable school room, well lighted and pleasant to work in, thanks to repairs the past year.

An especially satisfactory improvement has been the work on the play ground of the Ridge School. After all has been completed the surroundings of this school will be unexcelled anywhere in the state.

The Harvey Lake Woman's Club has continued its splendid record of achievement in the past by encouraging worthy lines of Educational Endeavor and by supporting projects for the betterment and uplifting of this community.

EXPENSES

Every taxpayer knows the mounting figures in school costs for the past twelve years. Tax figures for the state as a whole show that the climax has been reached and that many items are now diminishing instead of increasing. We believe the Budget is now about where it should be and from now on we should strive to attain the highest possible efficiency if that is not already being done. I refer to better and better attendance, fewer days lost to individuals, fewer no-school days in the year if possible.

Where there is so much supervised study in schools and project method of study it is also well to plan to put in as much time in all schools as we can rather than to shorten sessions in order that by having days of full time we may have pupils studying under the direction of teachers instead of under their own guidance at home.

There should be strict economy in the purchase and use of all supplies, pupils should care for their books painstakingly. Transportation and cost of fuel should be kept as reasonable as possible.

COE'S ACADEMY

The number of Northwood pupils in attendance at Coe's Academy is gratifyingly large. The record of

attendance at that school is much better than the corresponding time last year. The tardy record has been greatly improved and up to date stands unusually high. We hope every parent will strive to help along the lines of promptness and punctuality as they have been doing this year.

Many students at the academy are maintaining a high order of scholarship. With the advantages of location and the opportunities offered at Coe's a very high average of scholarship can be attained.

I take this opportunity to thank the teachers of Northwood for their pleasant co-operation and efficient efforts, the school board for their helpfulness at all times and the pupils for their cheerful and exuberant attitudes in accepting their school work and striving to do well. It has been a real inspiration to work in the Northwood schools.

Respectfully submitted,

ARTHUR D. WIGGIN,

Superintendent of Schools.
